\*13.4 Trainee researchers may apply for temporary de-registration from a programme whenever situations arise such as a work-related disability, risk during pregnancy, maternity leave, paternity leave, adoption or fostering, and risk during the lactation period. In such cases, trainee researchers may apply for the time allowed to complete the doctoral thesis to be suspended and must provide a certificate or accreditation of when their leave started and ended in order to do so. These applications must be submitted with all the supporting paperwork to the academic committee responsible for the programme, which must then hand down a decision on whether to accept a trainee researcher's application. Extensions on the time allowed to complete a thesis must be processed when the last enrolment for academic supervision is submitted.
